CHAPTER 1

GENERAL

AIM

1. The aim of Proficiency Level Four is to provide an Air Cadet with the theoretical knowledge and practical experience required to participate in squadron activities and appointments as a team leader.

PROGRAM DESIGN

2. The Proficiency Level Four Program has been designed:
- assuming that the majority of fourth year cadets are between 15 and 16 years of age;
 - assuming that the majority of cadets have successfully completed Proficiency Level Three;
 - using age-appropriate learning strategies;
 - using 30 minutes as a standard period of instruction;
 - by providing a programming mix consisting of mandatory and complementary training;
 - to include training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
 - assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.
3. Each proficiency level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PERFORMANCE OBJECTIVES

4. PO numbers are usually made up of three digits:
- The first digit indicates the proficiency level (eg, 'X' represents Proficiency Levels One to Four, '1' represents Proficiency Level One, '2' represents Proficiency Level Two, etc.).
 - The second and third digits indicate the topic area (eg, '00' represents Positive Social Relations for Youth, '01' represents Citizenship, '02' represents Community Service, etc.).
5. EO numbers are usually made up of six digits (eg, EO M103.01):
- The first digit is either an 'M', which indicates mandatory training, or a 'C', which indicates complementary training.
 - The second, third and fourth digits indicate the PO as per para 4.
 - The fifth and sixth digits indicate the specific EO number (eg, EO M103.01 is the first mandatory EO in Proficiency Level One leadership).
 - Some EOs have a seventh digit, which indicates there is a selection of EOs to choose from (eg, EOs MX01.01A, MX01.01B, MX01.01C, etc. indicates squadrons can choose any one of these EOs to satisfy the requirements of mandatory Citizenship training).

6. Each PO has been developed to contribute directly to the program aim and participant outcomes detailed in CATO 11-03, *Cadet Program Mandate*. The following are summaries of the POs common to all elements of the CP (allocated POs numbered 400 to X20) and the POs specific to Proficiency Level Four (allocated POs numbered 429 to 490):

- a. **Positive Social Relations for Youth.** PO 400 – Participate in Positive Social Relations for Youth Training. The aim of Positive Social Relations for Youth is to prepare cadets to interact comfortably within the cadet community, interact positively with others, exercise sound judgement, accept personal responsibility for actions and choices, deal with interpersonal conflict, and seek assistance from available resources when needed.
- b. **Citizenship.** PO X01 – Participate in Citizenship Activities. The aim of this PO is to introduce cadets to various aspects of being a good Canadian citizen through a range of fun, interesting and challenging activities.
- c. **Community Service.** PO X02 – Perform Community Service. The aim of this PO is to encourage cadets to be active citizens through participation as a team leader in a local community service activity.
- d. **Leadership.** PO 403 – Act as a Team Leader. The aim of this PO is to provide cadets with knowledge and skills to practice team leadership during naturally occurring leadership opportunities.

- k. **CAF Familiarization.** PO X20 – Participate in Canadian Armed Forces (CAF) Familiarization Activities. The aim of this PO is to stimulate the interest of cadets in the sea, land and air activities of the CAF.
- l. **Radio Communication.** PO 429 – Communicate Using Radio Procedures for Aviation Transmission. The aim of this PO is to have the cadets communicate using radio procedures for aviation transmission and provide the cadets with the ability to obtain the Industry Canada Restricted Operator Certificate with Aeronautical Qualification (ROC-A).
- m. **Principles of Flight.** PO 431 – Explain Principles of Flight. The aim of this PO is to further develop knowledge of principles of flight.

CHAPTER 2

TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

1. The Managing Authority for the Air Cadet Proficiency Level Program is D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:

- a. Royal Canadian Air Cadet Squadrons (RCACS); and
- b. Technical TEs, such as:
 - (1) Regional Cadet Air Operations (RCAOPS); and
 - (2) Other zone, detachment or regional TEs as authorized by the RCSU Commanding Officer (CO).

TRAINING DETAILS

2. In accordance with CATOs 11-04, *Cadet Program Outline* and 51-01, *Air Cadet Program Outline*, the Proficiency Level Program is conducted between 1 September and 30 June of each training year through a combination of 30 training sessions and 10 supported training days as detailed in Annex A.

3. The Proficiency Level Program is divided into two compulsory components that must be completed by all cadets. These components are:

- a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for squadrons, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Proficiency Level Program; and
- b. **Complementary Training.** Complementary training is a scheme of activities that is requisite for squadrons, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Proficiency Level Program. These activities complement mandatory activities and form an integral part of the Proficiency Level Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Proficiency Level Program to match the squadron's interests and resources.

4. **Period Allocation.** Periods are 30 minutes in duration with some periods allocated to be instructed in a field environment during supported weekends. A detailed period allocation, including details on training days / weekend, is provided at Annex A, and scheduling guidelines are located at Annex B.

5. **Training Days / Weekends.**

- a. The planning and conduct of training days is the responsibility of the squadron. Day training shall be conducted at the squadron parade location or, where suitable facilities do not exist at the squadron parade location, within the local community.
- b. The conduct of the familiarization flight and elemental day are normally the responsibility of Technical TEs (RCAOPS). The planning of these activities is to be done in conjunction with the Area Cadet Detachment / RCSU and RCAOPS.
- c. In accordance with CATO 11-04, *Cadet Program Outline*, weekend training shall normally be conducted within 300 kilometres of the squadron parade location.

- d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 51-01, *Air Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.
- e. Training days and weekends shall be structured, unless otherwise specified in the individual Proficiency Level QSP, to include cadets from all levels of the Proficiency Level Program.

6. **Training Capacity.** The training capacity is limited to the ability of the squadron to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and other applicable policies (eg, A-CR-CCP-951/PT-002).

7. **Training Staff Requirements.**

TRAINING DAY / WEEKEND ALLOCATION

MANDATORY

Activity	Description	Time
Mandatory Training Periods	18 periods of instruction (9 per day) chosen from the mandatory EOs to be delivered during full days of training. POs X02, X05 and / or 406 are best suited for delivery during training days; however, the flexibility does exist for squadrons to deliver the POs that best suit their circumstances (i.e. infrastructure, resource availability, etc).	2 Days
Demonstration Flight and Aviation Day	Every Proficiency Level Four cadet will be given an opportunity to experience a demonstration flight in an aircraft determined by RC Air Ops O. In addition to each demonstration flight, squadrons should maximize the training value of this allocated day by providing additional aviation training, such as lessons from POs 429 to 470.	1 Day
Air Cadet Skills Day	One day where cadets will train in and practice various skills drawn from training, such as EOs MX05.01 (Participate in Physical Activities), M406.01 (Participate in a Recreational Marksmanship Activity), C431.03 (Fly a Radio-Controlled Aircraft), C436.03 (Analyze Weather Information), C437.01 (Solve Navigation Problems With a Manual Flight Computer), C440.07 (Operate a Telescope) and C470.04 (Disassemble and Reassemble a Small Engine). Squadrons may conduct this day with other squadrons and / or in a competition format.	1 Day
Aircrew Survival Exercise	One weekend of mandatory support will be provided for cadet squadrons to participate in an overnight exercise to include the delivery of PO 490.	1 Weekend
	Total Mandatory	6 Days

SCHEDULING GUIDELINES

1. Schedule those activities that are set dates (eg, Remembrance Day activities, Regionally Directed Activities, TE activities [eg, gliding], School Breaks).
2. Schedule major and recurring activities (eg, PO X05 [Physical Activities], CO's Parades, Aircrew Survival Exercises, Annual Ceremonial Review).
3. Schedule the following training activities early in the training year:
 - a. PO 100 (Positive Social Relations for Youth),
 - b. POs 107, 207, 307, 407 and 507 (General Cadet Knowledge),
 - c. POs 303, 403 and 503 (Leadership), and
 - d. POs 309 and 409 (Instructional Techniques).
4. Schedule any special considerations, such as:
 - a. Schedule EO MX04.02 (Identify Strategies to Improve Participation in Physical Activities and Participate in the Cadet Fitness Assessment) four weeks after EO MX04.01 (Participate in 60 Minutes of Moderate- to Vigorous-Intensity Physical Activity and Track Participation in Physical Activities);
 - b. Schedule EO M190.01 (Pack Personal Equipment for an Aircrew Survival Exercise) prior to the squadron's Aircrew Survival Exercise;
 - c. Many EOs can be scheduled during training days / weekends (eg, most of PO X90 should be scheduled during the Aircrew Survival Exercise, many EOs from POs X30, X40, X60 and X70 can be scheduled during the Familiarization Flying and Aviation Day, and Air Cadet Skills Day);
 - d. For the completion of POs 303, 403, and 503 (Leadership), consider leadership assignment opportunities for Proficiency Levels Three, Four and Five cadets; leadership appointment opportunities for Proficiency Levels Four and Five cadets; leadership project opportunities for Proficiency Level Five cadets; and
 - e. Schedule each Proficiency Level Four cadet into the Proficiency Level One and Two training schedules in order to complete EO M409.05 (Instruct a 30-Minute Lesson).
5. Schedule the remaining mandatory training (details located in the lesson specifications in Chapter 4).
6. Schedule selected complementary training.
7. Other considerations when developing the annual training schedule include:
 - a. the training environment required for each activity:
 - (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
 - (2) some activities will require the use of a special facility, such as a gymnasium or sports field; and
 - b. the availability of a technical specialist, if required to conduct the activity;

8. Considerations when implementing the training program:
 - a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
 - b. Training sessions need to be planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides, and creating instructional materials as required.
 - c. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.

CHAPTER 3

CADET EVALUATION

PURPOSE

1. This chapter outlines the evaluation requirements for achievement of Proficiency Level Four qualification.

LEARNER EVALUATION

2. During Proficiency Level Four, a combination of formative and summative evaluation will be used to track cadets' progress.
3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize cadets' progress or difficulties in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using Performance Checks (PCs) employed in summative evaluation.
4. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs or critical EOs (those deemed prerequisites to further individual training and education) and is used at the end of a phase of instruction. Details for assessment of learning are located within this chapter.

CADET EVALUATION DESIGN AND DEVELOPMENT

5. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).
6. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.
7. The following fundamental assessment principles shall guide the conduct of Proficiency Level Four assessment activities:
 - a. in advance of training, the instructor shall inform the cadet of POs and EOs associated with the qualification;
 - b. in advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment;
 - c. assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning;
 - d. the instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement;
 - e. the cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment; and
 - f. the cadet shall be encouraged to actively, consistently and effectively communicate with others about their learning progress.

CP DEVELOPMENTAL PERIODS (DPs)

8. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

9. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aims of the CP and contribute to the achievement of the CP outcomes.

10. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

11. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING PLAN

12. The Assessment of Learning Plan located at Chapter 3, Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Proficiency Level Four qualification. The assessment of learning plan will:

- a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
- b. identify the learning target(s) associated with the PO and / or EO being assessed, to include:
 - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know;
 - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess;
 - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor;
 - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product; and / or
 - (5) **Attitudinal / Dispositional Changes.** A cadet's attitude about learning, safety, conducts, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification.
- c. identify the assessment method(s) that best matches PO and / or EO learning targets, to include:
 - (1) **Selected Response.** A cadet selects the correct or best response from a list provided. Formats include multiple choice, true / false, matching, short answer, and fill-in questions. Although short answer and fill-in-the-blank questions do require cadets to generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category;

- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length;
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; the performance or product is observed and determination is made as to its quality; and / or
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

ASSESSMENT INSTRUMENTS

13. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Chapter 3, Annex B.

MONITORING CADET PROGRESS

14. Cadets must meet the standard of behaviour and conduct expected from all cadets. During cadet interviews and personal counselling, the Proficiency Level Four Course Officer should adopt a proactive approach towards difficulties.

15. The Proficiency Level Four Course Officer should meet formally and informally with cadets throughout the training year to discuss the cadet's progress towards Proficiency Level Four qualification (assessment for learning) and to provide feedback on overall performance. The Proficiency Level Four Course Officer shall meet with each cadet at the end of the training year to review the completed *Proficiency Level Four Qualification Record*. Guidelines for conducting cadet interviews are located at Chapter 3, Annex D.

16. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Proficiency Level Four qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline – Cadets*.

TRAINING COUNSELLING SESSION

17. A training counselling session is used when a cadet is having difficulties progressing and an intervention is required to set goals for corrective action and / or remedial instruction. The Trg O is responsible for conducting training counselling sessions, except in the case of cadet rank promotions for which the CO is responsible. Guidelines for conducting training counselling sessions are located at Annex E and the Training Counselling Session Form is located at Annex E, Appendix 1.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

18. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Proficiency Level Four qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and / or local standards.

PROFICIENCY LEVEL FOUR QUALIFICATION STANDARD

- 19. The minimum standard for Proficiency Level Four qualification is:
 - a. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the squadron; and
 - b. successful completion of each PO as outlined in the Proficiency Level Four Qualification Record located at Chapter 3, Annex C.

CADETS NOT MEETING THE QUALIFICATION STANDARD

20. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the assessment of learning plan and associated assessment instruments, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the squadron. If, by the end of the training year, a cadet who is Proficiency Level Three qualified has not successfully attained any PO, the squadron CO may waive the minimum qualification standard. When waiving any PO requirement, the squadron CO shall consider:

- a. the legitimacy of the cadet's reason for failing to attain the PO;
- b. the cadet's mandatory and complementary training attendance; and
- c. the cadet's overall behaviour and performance.

21. Any cadet for whom a waiver has been issued will not be granted the Proficiency Level Four qualification. However, that cadet will progress to Proficiency Level Five in the fifth year of their squadron membership. If a CO does not grant a cadet a waiver, that cadet may be held back to repeat Proficiency Level Four.

22. Cadets who have been granted a waiver of the qualification standard of Proficiency Level Four and have progressed to Proficiency Level Five in the fifth year of their squadron membership are expected to achieve the missing Proficiency Level Four PO requirements. To facilitate this, cadets may concurrently receive credit for activities completed in Proficiency Level Five as part of also achieving Proficiency Level Four.

23. Only cadets who have achieved Proficiency Level Three qualification may be granted a waiver.

RECORDING AND REPORTING CADET ACHIEVEMENT

24. The progress of each cadet shall be recorded on the Proficiency Level Four Qualification Record, located at Chapter 3, Annex C, which is also used to determine successful completion of Proficiency Level Four qualification. COs are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

PROFICIENCY LEVEL FOUR CERTIFICATE OF QUALIFICATION

25. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Proficiency Level Four qualification.

CONDUCT OF ASSESSMENT

1. Have the cadet complete their Physical Activity Tracker and meet with them as required to deal with any difficulties that may arise. Make notes of observations.
 2. Once the cadet has completed the Physical Activity Tracker, evaluate their performance using the assessment form.
 3. Conduct a debriefing. Ask the cadet what they felt went well and what they would improve upon if the assessment was given to them again.
 4. Discuss the overall performance results with the cadet and provide the cadet with a copy of the completed 404 PC Personal Fitness and Healthy Living Assessment Form.
-

POST ASSESSMENT INSTRUCTIONS

1. Place a copy of the 404 PC Personal Fitness and Healthy Living Assessment Form in the cadet's training file.

ANNEX D CADET INTERVIEW GUIDELINES

GENERAL

The purpose of conducting an interview is to discuss the cadet's expectations, personal goals and learning progress (assessment for learning), and to provide feedback on overall performance.

Meet with the cadet throughout their training to discuss their progress towards achieving the qualification and to revise their action plan.

PRE-INTERVIEW INSTRUCTIONS

Gather the required resources, such as the Cadet Interview Form (Appendix 1), training schedules, the Assessment of Learning Plan (Chapter 3, Annex B), PC assessment instruments, pen, paper, etc.

Have the cadets review any support materials so they are able to attend the interview prepared to discuss the specific topic areas, as well as their expectations and personal goals.

Schedule interviews to allow approximately 10–15 minutes per cadet.

CONDUCT OF AN INTERVIEW

Tips for a successful interview:

- Ask questions that will provoke thought; avoid “yes or no” questions.
- Manage time by ensuring the cadet stays on topic.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<p>CASE STUDY Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions</p>	<p>1. Learning principles, attitudes and concepts.</p>	<p>1. Effective application of teaching principles instead of “preaching”. 2. Cadets can help each other learn. 3. High energy and perfect demonstrations. 4. Can be easily related to a real life situation in the past and for future applications.</p>	<p>1. Must be well organized and facilitated in order to ensure learning takes place.</p>
<p>DEMONSTRATION AND PERFORMANCE Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction, where cadets are shown a movement and given the opportunity to practice and perform it.</p> <p>Demonstration Method A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.</p> <p>Performance Method A method in which the cadet is required to perform, under controlled conditions, the operations, skill or movement being taught.</p>	<p>Demonstration Method</p> <p>1. To teach manipulative hands-on operations or procedures. 2. To teach troubleshooting. 3. To illustrate principles. 4. To teach operation or functioning of equipment. 5. To teach teamwork. 6. To set standards of workmanship. 7. To teach safety procedures.</p> <p>Performance Method</p> <p>1. To teach manipulative hands-on operations or procedures. 2. To teach operations or functioning of equipment. 3. To teach team skills. 4. To teach safety procedures.</p>	<p>Demonstration Method</p> <p>1. Minimizes damage and waste. 2. Saves time. 3. <p>EXPERIENTIAL LEARNING Learning in the cadet program is centred on experiential learning. This involves learning knowledge and skills from direct experience. People learn best from their own experiences and can then apply the knowledge and skills in new situations. The four stages of the cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen.</p> <p>Stage 1: Concrete Experience: Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, and reading.</p> <p>Stage 2: Reflective Observation: Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals / logs, and graphs.</p> <p>Stage 3: Abstract Conceptualization: Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion, model building, analogies and planning.</p> <p>Stage 4: Active Experimentation: Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities include: simulation, fieldwork.</p> <p>Note: The cycle is ongoing as each learning experience builds on another.</p>	<ol style="list-style-type: none"> 1. To teach practical skills. 2. To learn how to learn. 3. To teach transferable skills. 4. To teach the process or principle. 5. To teach problem solving. 	<ol style="list-style-type: none"> 1. Knowledge is shared and created by everyone. 2. Everyone is actively involved in the teaching – learning process. 3. Numerous resources are used. 4. Cadet based. 	<ol style="list-style-type: none"> 1. Many resources are required (may be expensive). 2. Needs a lot of planning, preparation and organization prior to activity. 3. The instructor must master the subject developed. 4. Instructor needs very good pedagogical skills. 5. May not be a good process for learning details.
<p>FIELD TRIP Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying / gliding, hiking or sailing.</p>	<ol style="list-style-type: none"> 1. Awareness of historical situations. 2. Can be used in conjunction with many other instructional methods. 3. To introduce / illustrate and confirm topics. 	<ol style="list-style-type: none"> 1. Immerse cadets in a specific environment. 	<ol style="list-style-type: none"> 1. May be difficult to control. 2. Needs much organization and preparation. 3. May have cost involved.

<p>GAME Games are used with one or more participants to practice skills, apply strategies and enhance teams. It is critical that the game supports learning through the provision of a challenging activity that allows for the skill practice or knowledge confirmation. Games are a fun and interesting way to introduce a topic, expand cadets' understanding knowledge of topic or review material.</p>	<ol style="list-style-type: none"> 1. Practical situations. 2. Discovery of concepts and principles. 3. Review and confirmation. 4. Games include rules and assessment. 	<ol style="list-style-type: none"> 1. Fun, interesting. 2. Creates ownership. 3. Highly participative. 4. Many resources involved. 	<ol style="list-style-type: none"> 1. May stratify the group by creating a winner and a loser. 2. May be difficult to providing instructor feedback.
<p>GROUP DISCUSSION Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to a specific goal. The instructor's questioning is flexible and minimal, and aims at encouraging cadets to explore their own experiences and opinions through peer interaction.</p>	<ol style="list-style-type: none"> 1. To develop imaginative solutions to problems. 2. To stimulate thinking and interest and to secure cadet participation. 3. To emphasize main teaching points. 4. To supplement lectures. 5. To determine how well cadets understand the concepts and principles. 6. To prepare cadets for application of theory or procedure. 7. To summarize, clarify points or review. 8. To prepare cadets for instruction that will follow. 9. To determine cadet progress and effectiveness of prior instruction. 	<ol style="list-style-type: none"> 1. Increases cadet interest. 2. Increases cadet acceptance and commitment. 3. Utilizes cadet knowledge and experience. 4. Results in more permanent learning because of the high degree of cadet participation / cognitive involvement. 	<ol style="list-style-type: none"> 1. Requires highly skilled instructors. 2. Required preparation by cadets. 3. Limits contents. 4. Consumes time. 5. Restricts size of group. 6. Requires selective group composition.

<p>IN-CLASS ACTIVITY In-class activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce instructional topics or to introduce cadets to new experiences. In-class activities should provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. Examples of these activities include learning stations, videos, brainstorming / debating.</p>	<ol style="list-style-type: none"> 1. To reinforce instructional topics. 2. To orient cadets to the subject. 3. To introduce a subject. 4. To give direction on procedures. 5. To present basic material. 6. To introduce a demonstration, discussion or performance. 7. To illustrate the application of rules, principles or concepts. 8. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. To provoke thought and stimulate interest among cadets, while maintaining relevance to the performance objectives. 2. Permits flexibility with class size. 3. Requires less rigid space requirements. 4. Permits adaptability. 5. Permits versatility. 6. Permits better control over content and sequence. 	<ol style="list-style-type: none"> 1. Encourages cadet passiveness. 2. Difficult to gauge cadet reaction. 3. Takes time to prepare.
<p>INTERACTIVE LECTURE The instructor-driven methodology combines both lecture and interaction to meet lesson objectives. Lecture portions of the lesson are offset with relevant activities such as videos with discussion, games to confirm and completion of handouts.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. Saves time. 2. Permits flexibility of class size. 3. Requires less rigid space requirements. 4. Permits adaptability. 5. Permits versatility. 6. Permits better control over content and sequence. 	<ol style="list-style-type: none"> 1. Involves one-way communication. 2. Poses problems in skill teaching. 3. Encourages passive behaviour. 4. Difficult to gauge cadet reaction. 5. Requires highly skilled instructors. 6. Requires a high level of concentration from the cadets.
<p>LECTURE This is a formal or semi-formal discourse in which the instructor presents a series of events, facts, principles, explores a problem or explains relationships.</p>	<ol style="list-style-type: none"> 1. To orient cadets to the subject. 2. To introduce a subject. 3. To give instruction on procedures. 4. To present basic material. 5. To illustrate the application of rules, principles or concepts. 6. To review, clarify, empathize or summarize. 	<ol style="list-style-type: none"> 1. Proficient oral skills are required. 2. Useful for big groups. 3. Saves time because of fewer interruptions. 	<ol style="list-style-type: none"> 1. Should have a clear introduction and conclusion. 2. Cadets may be passive and uninvolved.

METHOD(S)	APPLICATIONS	ADVANTAGES	DISADVANTAGES
<p>PRACTICAL ACTIVITY Practical activities encompass a wide variety of activity-based learning opportunities that can be used to reinforce and practice instructional topics or to introduce cadets to new experiences. Practical activities should stimulate interest among cadets and encourage their participation, while maintaining relevance to the performance objectives.</p>	<ol style="list-style-type: none"> 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 3. To introduce a subject. 	<ol style="list-style-type: none"> 1. Encourage participation by cadets. 2. Stimulate interest in the subject. 3. Maintain relevance to the performance objectives. 4. Fun and interesting. 5. Creates ownership. 6. Highly participative in small groups. 7. Many resources involved. 	<ol style="list-style-type: none"> 1. Extensive supervision is required to ensure proper content is covered. 2. Takes time to prepare. 3. Not suitable for large groups.
<p>PROBLEM-BASED LEARNING Cadets analyse a problem, apply the steps in the problem solving method and work toward solving the problem in small groups. Problem-based learning requires cadets to participate and interact with each other while developing critical thinking skills. Instructors choose problem that stimulate thought, reinforce learning and relate to the cadets' interest and needs. Throughout the exercise, instructors pose thought-provoking questions and guide cadets without influencing their decisions.</p>	<ol style="list-style-type: none"> 1. Review. 2. In practical situations such as leadership development, parade appointments, etc. 	<ol style="list-style-type: none"> 1. Encourage participation by cadets. 2. Stimulate interest in the subject. 3. Maintain relevance to the performance objectives. 4. Many resources involved. 	<ol style="list-style-type: none"> 1. Critical thinking skills are required. 2. Broad knowledge of the subject matter is required.
<p>ROLE PLAY Cadets are assigned roles requiring them to interact with others in responding to various realistic situations. The instructor identifies the purpose of the role-play, provides the cadets with enough background information to help them accurately play their assigned role, and motivates them to become more fully involved in the activity. De-brief after the role-play is essential to connect the activity with the PO / EO.</p>	<ol style="list-style-type: none"> 1. Skills associated with social systems or human interactions; practical situations eg. Positive Social Relations for Youth, discipline issues, behaviour on the range, leadership, instructional techniques. 2. Attitudinal objectives. 	<ol style="list-style-type: none"> 1. High participation, interactive delivery and may lead to discussions. 2. Experience is developed in a supportive environment. 3. Can be very versatile depending on application eg, introduce a topic, mid-stage learning or as confirmation. 	<ol style="list-style-type: none"> 1. Participants can be easily sidetracked, need for good preparation and controls must be set appropriately. 2. Competence, experience and prepared instructors required.
